## Love that skin Dayenne

The DAYENNE skin care range is an amazing of wonder when it comes to caring for skin and is suitable for both men and women, young and old. It's extremely easy to use and just as effective. More importantly, it does what it says! Many men have been shouting for more as they have all realised that their skin stays oil free all day and looks a lot healthier. Furthermore, their skin does not feel irritated after shaving.

DAYENNE helps deal with existing acne and pimples and proactively helps prevent future breakouts before they even surface on the skin. The products contain natural ingredients and soothing botanicals that make the skin feel healthy and hydrated. DAYENNE also encourages healthy cell renewal and regeneration, and balances pH. Best of all, there are no known side effects of the DAYENNE skin care range.
